

## STORMWATER MANAGEMENT ELEMENT TABLE OF CONTENTS

GOAL 1.....	1
OBJECTIVE 1.....	1
Maintain an inventory and evaluation of new and existing County and privately owned/maintained stormwater management facilities.	
OBJECTIVE 2.....	1
Deficient stormwater management and drainage facilities will be upgraded in accordance with Chapter 62-25 F.A.C and federal, state, regional, water management districts (WMD) and local regulations in effect on the date of adoption of this Comprehensive Plan to an acceptable level of service to prevent violations of water quality standards.	
OBJECTIVE 3.....	2
Coordinate improvements to the stormwater management system which serve new or future needs with the Future Land Use Map and level of service standards as adopted in this plan.	
LEVELS OF SERVICE Floodplain Management.....	3
LEVELS OF SERVICE Water Quality.....	4
OBJECTIVE 4.....	4
The County shall continue to maintain and improve existing stormwater management facilities in order to maximize their capacity and lifespan and to ensure that discharges do not violate State water quality standards.	
OBJECTIVE 5.....	5
Alachua County will ensure the protection of natural drainage features, including surface water quality and groundwater aquifer quality and quantity recharge functions, from stormwater runoff.	
OBJECTIVE 6.....	6
Ensure that stormwater discharges to groundwater or surface water resources that are within or affecting more than one governmental jurisdiction are effectively managed to preserve, protect, and enhance those watershed resources through continued active County coordination with adjacent governments and appropriate agencies.	
OBJECTIVE 7.....	6
Stormwater management in floodplain areas shall protect the public health, safety and welfare by incorporating hazard mitigation and multi-functional designs.
